An Animal Lover Prepares for a Career in Animal Health

by Ross Hooley

P

The Think College Transition (TCT) project is an inclusive dual-enrollment transition model designed to improve post-school outcomes for students aged 18 to 21 years who have intellectual disability and autism. The key feature of this model is assisting students to be involved with college classes, work experiences, and social networking opportunities on a college campus with their same-age peers, rather than having typical transition services in a high school.
